

Snapshot

1

Working  
Directory

Local  
Repository

Remote  
Repository

e17181f

The diagram illustrates a snapshot state across three locations. A horizontal line at the level of 'Snapshot 1' spans the width of the chart. Three vertical dashed lines mark the boundaries of the 'Working Directory', 'Local Repository', and 'Remote Repository'. A solid red rectangle is positioned in the 'Working Directory' section, aligned with the horizontal line. A red-outlined rectangle containing the text 'e17181f' is positioned in the 'Local Repository' section, also aligned with the horizontal line. The 'Remote Repository' section is empty.
